paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 297 Publisher: People s Post Pub. Date :2008-06-01. Book is a comprehensive and systematic description of the electronic production process knowledge. A total of eight chapters the book content. the performance of electronic components and packages. welding installation process. the printed circuit board production. Surface Mount Technology (SMT). lead-free solder and process technology is described in detail. and testing of electronic products and commissioning. quality inspection and ISO9000 certification and electronic document management products. a detailed technical exposition. also on the electronic structure of the process and protection in depth discussion and analysis. This book is rich in content and covers a wide range of vocational institutions according to their different professional requirements can be flexible choice. This book is a comprehensive practice of teaching materials. with high practical value. Electricity for vocational colleges as a teaching professional use. but also for manufacturers of electronic engineering and technical personnel and the general electronic enthusiasts reference.
