paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 383 Language: Simplified Chinese Publisher: Zhengzhou University Press; 1st edition (May 1. 2007). University physics tutorials (Vol.1) on the books. a total of three sections. Among them. the results of the first part of the first physical revolution - Newtonian mechanics theory. this theory in a convincing concept to tell human subjects. how to describe what happened in the visible range of movement from the ground object to the cosmological. The second part is from the development and extension of Newtonian mechanics in the field of high-speed movement and non-inertial motion. namely the theory of relativity; relativistic thesis to the idea of ??creative. time and space one movement. the gravitational field is equivalent to accelerating the playground. the universe stems from the creation of a huge explosion. College Physics tutorial (Vol.1) Finally. the interaction with the field portion of the material. about to establish the spatial structure of electromagnetic field in the case of known charge or current distribution. physics. and modern physics about the physical world basically interacting field theory image. University physics tutorials (Vol.1) optional college physics textbooks for science and engineering institutions. the physics students also have some reference value. This tutorial is written in accordance with the basic requirements of science and engineering university physics courses teaching the basis of teaching of the Steering Committee of the Ministry of Education recently developed. Not follow the traditional approach in the preparation of this tutorial. instead of using a new body of knowledge. from the level of the structure of matter about the teaching of university physics. with particular emphasis on the level of the motion of matter. as well as field and wave...
