ECOOP 2004 - OBJECT-ORIENTED PROGRAMMING

To download **ECOOP 2004 - Object-Oriented Programming** eBook, you should refer to the web link beneath and save the document or have access to other information which might be have conjunction with ECOOP 2004 - OBJECT-ORIENTED PROGRAMMING book.

Springer Jun 2004, 2004. Taschenbuch. Book Condition: Neu. 23.3x15.5x cm. Neuware - ECOOP is the premier forum in Europe for bringing together practitioners, - searchers, and students to share their ideas and experiences in a broad range of disciplines woven with the common thread of object technology. It is a collage of events, including outstanding invited speakers, carefully refereed technical - pers, practitioner reports re ecting real-world experience, panels, topic-focused workshops, demonstrations, and an interactive posters session. The 18th ECOOP 2004 conference held during June 14-18, 2004 in Oslo, Norway represented another year of continued success in object-oriented p- gramming, both as a topic of academic study and as a vehicle for industrial software development. Object-oriented technology has come of age; it is now the commonly established method for most software projects. However, an - panding eld of applications and new technological challenges provide a strong demand for research in foundations, design and programming methods, as well as implementation techniques. There is also an increasing interest in the in- gration of object-orientation with other software development techniques. We anticipate therefore that object-oriented programming will be a fruitful subject of research for many years to come. Thisyear,theprogramcommitteereceived132submissions,ofwhich25were acceptedforpublicationafterathoroughreviewingprocess.Everypaperreceived atleast4reviews.Paperswereevaluatedbasedonrelevance,signi cance,clarity, originality, and correctness. The topics covered include: programming concepts, program analysis, software engineering, aspects and components, middleware, veri cation, systems and implementation techniques. These were complemented by two invited talks, from Matthias Felleisen and Tom Henzinger. Their titles and abstracts are also included in these proceedings. 614 pp. Englisch.
