## **EVEN DOCTORS HAVE HEART ATTACKS: A PATIENT COMES IN CRITICAL. HIS INVOLVING STORY TELLS IT ALL BRUTALLY, NO HOLDS BARRED ONLY THAT THIS PATIENT IS A DOCTOR TOO (PAPERBACK)**

Conrad Castellino, United States, 2012. Paperback. Book Condition: New. 202 x 132 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.subtitle: The saga of a medical crisis in a physician, now with roles reversed finds himself in the middle of it all. Through it all he may have visited the other side, or was it just a figment of imagination. Attending such a medical crisis he finds himself questioning why he was chosen for such a torturous journey. He searches vainly for the real reason of his test. The story only gets more involving when in his recovery period a series of equally challenging events threatens to derail his fragile and prolonged recovery. His sanity is felt threatened at times yet through the haze some solutions present themselves that may help him understand why he was chosen. This is a well written, engrossing book, with so much imagery that the reader is transported into the world created by the author and always the answer is a page away only to be taken into another endurance test. This book will appeal to a wide audience including people in the medical field, caretakers, people who know some one who has been through a life changing event, people into spirituality, humanitarians, college reading programs and anyone who wants to know how far human endurance can be stretched and yet bounce back to display the resiliency of the human character.
