For convenience the work is divided into general topics, each of which is subdivided into separate lessons(17 in all). Teachers following this outline must consider the age and abilities of each class, as well as the frequency of meetings and the length of time devoted to study. The average time allowed for the course is one year. Whenever necessary, however, teachers may still further subdivide the lessons. A few special references are mentioned in connection with each topic. Club illustrations are referred to by number (see pages 22 and23). For fuller titles of books and publishers, seep. 25. Note: Where a lesson is divided into A and Bthese should be made two separate lessons in a two-year course. Topic I. - Geography. Chronology and Geography are the two lamps of History.
